Monitor Information: 6 monitors, 3 mixes (1-2, 3-4, 5-6)

Note: The show will not be traveling with a sound/lighting engineer or sound equipment, therefore in-house sound and lighting personnel along with equipment specified including projector above will be required.

Items to be supplied by venue

Christmas Trees

2 x Christmas Trees & stands w/ white lighting

Upstage Risers

2 upstage risers with following approximate dimensions: 12' x 8' x 16"
please add black skirts to mask platform bases

Projector

digital projector - if there is no in-house projector installed, venue should hire a portable digital projector which can be set up on upstage stage centre. This will be attached onstage to an Apple laptop (adaptor supplied by show) containing visual images on-stage, and will be controlled by remote-control from the stage by one of the performers.

Projection Screen

large white screen stage backdrop, to cover as much of stage backdrop as possible.
must be suitable for projection
